

Accessories

Pull, push, or electrically activated, FIREBOTTLE products send SFI-approved DuPont™ FE-36™ extinguishing agent to extinguish fire when and where intended.

- FIREBOTTLE discharges completely. You don't fight the fire. FIREBOTTLE does.
- FIREBOTTLE acts without delay, stops it at the start.
- Clear DuPont™ FE-36™ does not obscure vision, nor impede actions of the driver or safety crews.
- No chemical residue, nor costly clean-up.

FIREBOTTLE systems are economical and shipped complete. When equipped and installed properly, activated when necessary, FIREBOTTLE extinguishes fire and saves lives. Car, trailer, trunk, or work. All cylinders DOT approved. All systems SFI Certified unless otherwise stated.

FIREBOTTLE fire suppression systems are used in all types of racing series including NASCAR, NHRA/IHRA, Busch, Craftsman Trucks, and others. Also used in aircrafts, forklifts, armored cars, and others.

IMPORTANT LIMITED WARRANTY INFORMATION

If in the judgment, of Safety Systems, Inc., a product or part thereof be proven defective in material or workmanship within one year of original purchase, defects will be repaired or replaced without charge.

To obtain repairs or replacement within the terms of this limited warranty, the products must be delivered transportation paid to Safety Systems, Inc.

Retail customers are advised that automobile racing is a dangerous sport and products are subject to failure when exposed to high stresses involved. Safety equipment is related directly to the manner in which it is installed, used and/or maintained. The user assumes that risk. No warranty or representation is made as to the product's ability to protect from serious injury or death, which may result from circumstances beyond our control.

This limited warranty is in lieu of all other warranties expressed or implied, and no person or representative is authorized to assume for Safety Systems, Inc. any other liability in connection with the sales of Safety Systems, Inc. products.
